

February 25, 2020

Dear Fellow Republicans,

Welcome to Caucus Night! I commend you for taking time out from your busy schedule to join me in this fundamental exercise of our democratic rights. Your participation tonight is the first step toward making a difference in the 2020 campaign.

I am honored to have been chosen to represent Minnesota's 8th district. It is a privilege to serve you and fight on the front lines of democracy for our way of life.

President Trump is correct: America is thriving, America is flourishing, and yes, America is winning like never before. The President's economic policies I helped champion have given new life to the American economy, delivering prosperity and new hope for American workers and businesses, including the explosive potential for a blue-collar boom right here in our part of Minnesota.

Despite the great American comeback, our way of life is still under attack. That's why I need you alongside me in the fight.

Together we must continue fighting for our way of life by unleashing the economic engine in the 8<sup>th</sup> district that includes mining, manufacturing, and an agriculture sector that is woven into the fabric of our lives. Let's fight for free and fair trade. Let's fight for the Enbridge Line 3 replacement project. Let's fight for greater border security. Let's fight to protect and preserve our 2<sup>nd</sup> Amendment rights. And let's fight for those who can't protect themselves by standing for life and defending the unborn.

I appreciate the responsibility with which you have entrusted me as your representative. I am grateful for your support, and I ask you today to join me by electing strong conservatives.

Together, we can ensure November 3, 2020 is a day of celebration!

Thank you again for attending tonight's caucus, and I look forward to seeing you on the campaign trail!

Sincerely,

Pete Stauber
