Dear Fellow Republicans,

Welcome to Caucus Night! I commend you for taking time out from your busy schedule to join me in this fundamental exercise of rights guaranteed in our Constitutional Republic.

Democrat control of Washington is failing. They are spending money we don't have. Inflation is skyrocketing. Energy prices are through the roof. Supply chains are breaking. China and Russia are laughing at us. Our borders are weakened. Our law enforcement is under attack. Businesses are handcuffed by tyrannical government mandates. Parents are being told they have no say in their children's education... Enough is enough.

We are Minnesotans! We believe in going to work each day and the dignity a job brings. We are proud of our heritage that includes miners and manufacturers, farmers, loggers, and truckers. We have faith in our Main Street small businesses who are the engine to our economy. We stand with our police and sheriffs and salute our servicemen and women. We believe in the Constitution and cherish the 2nd Amendment. We advocate for Life and fight for those who can't defend themselves.

These are the fibers of our DNA that make America great.

Friends, I am running for re-election for Congress because northern Minnesota needs a voice in Washington who will champion our causes built on the foundation of our values and beliefs. Please join me in taking back our country and rebuilding our future.

Thank you again for attending tonight's caucus, and I look forward to seeing you on the campaign trail!

Sincerely,

Pete Stauber
