## Qualls for Governor

To my friends and party supporters,

I humbly ask for your support as we embark on this journey to unseat Governor Walz. As a state party, we're all united behind one common goal: to fix our state before the current administration can do any more harm, and with me as the endorsed nominee, I have no doubt that we will achieve that.

For over two years we've seen the devastation Governor Walz and his radical allies have wreaked on Minnesota. Far-Left policies have led to rising crime, an education system that's failing our children and skyrocketing taxes that have caused Minnesotans to flee in record numbers. Fixing these crises are my Day One priorities and after 30 years as a businessman in the private sector, I know how to get it done.

Last year, I founded TakeCharge MN to promote the idea that America works for everyone regardless of race. For the first time in a long time, people saw someone address problems like critical race theory, crime and race relations and not just pass the buck. Our message was not just heard but welcomed with open arms.

My life story is a living case study that the promise of America is alive and well. From poverty to prosperity, literally from the projects of Harlem and a trailer park in Oklahoma to become of Vice President of Fortune 100 company. In between I served our country as an Artillery Officer in the Army, stateside and in South Korea.

This is part of why I am uniquely positioned to be our governor. I want everyone to know that how you start your life isn't how you end it.

Americans are tired of being bullied by the left and exhausted by constant accusations of systemic racism. In fact, this is the least racist period in our country's history. My parents and grandparents would have loved to have grown up in the America I grew up in.

But you wouldn't know that listening to Governor Walz and Democrat leaders like Ilhan Omar and Keith Ellison. The reality is they have a basic mistrust in people. It is the reason they want to dictate, mandate, and regulate our lives. I trust in the goodness in Minnesotans. As governor, I will trust the people of Minnesota to do the right thing by giving them the freedom and flexibility to manage their lives with minimal government interference.

Unlike Governor Walz, I'm on your side, the taxpayer, the voter, and not on the side of the political class and their government bureaucrats telling us how to live our lives.

So why am I different than those already running?

- I am a **true outsider** running to replace Governor Walz. Remember, career politicians are the ones who got us into this mess in the first place. Unlike others, I don't owe anything to the St. Paul insider lobbying class – my only allegiance is to you and the taxpayers of our state.
- I am the **only true conservative** in the race: I've been a Republican since I was 18 years old. I am 110% pro-life, pro-2A, pro-parent, toughest on crime, strongest on immigration. No questions.
- I am the **only veteran** in the race – I know the meaning of service and sacrifice.
- I am the **only one** who can fix Tim Walz's mess. St. Paul insiders can't fix this mess, but I will.

Minnesota is ready for someone outside politics to step inside the ring and take charge. Can I have your support for Kendall Qualls for Governor?
